## ANOTE'S ARK

MONDAY APRIL 15, 6:00-8:00 PM  
ROYAL CANADIAN LEGION, PERTH

What happens when your nation is swallowed by the sea? A screening of Anote's Ark at the Perth Legion on 15 April is open to the public. Written and directed by Matthieu Rytz (2018), the film documents the riveting story of the people of the Pacific Nation of Kiribati, an island culture whose country has been radically impacted by rising seas resulting from climate change. Doors will open at 6:00 pm with the film starting at 6:30 pm after a brief context-setting introduction by Dr. Shelley Ball of BIOSPHERE Environmental Education. Donations at the door to support CFUW Perth & District programs are welcomed.
