Overview

Since 2002, Lake Links has allowed lake associations and other volunteer groups in Eastern Ontario to come together with government and non-government agencies to listen to speakers, share information, and address common lake and river issues that matter most to our communities. This one-day workshop is held every October, typically in Perth, Ontario. Due to current health guidelines and the safety of attendees, this year's workshop will take place exclusively online and is open to anyone across Ontario.
