Cc: Subject: Re: Letter to Hon R. Phillips in support of Conservation Authorities

Hello Mr Hillier

Attached for your information you will find a letter to the Hon. Rod Phillips in support of continuing the role of the Conservation Authorities. This letter is from the White Lake Preservation Project (WLPP), a group dedicated to trying to preserve the integrity of a Lake in your riding which is under heavy development pressure and which has experienced serious deterioration in the years since we started our project.

Also attached is a Water Quality Monitoring Program Report for 2018. It is a Summary of a much more complete report on the health of White Lake that will appear on our website at wlpp.ca.

We hope that you will make note of our concerns regarding the lack of protection for our invaluable water sheds, lakes and rivers, which is especially serious in the absence of Conservation Authorities.

Janet Taylor, WLPP
