

### **Membership Drive**

We worked on designing new promotional pamphlets and door hangers. Volunteers will be heading out to knock on doors on their lakes in May.

### **Protect Opinicon Inc.**

Continue to follow and support the progress of this group in their attempt to stop the expansion of the Skycroft campground by adding 148 new campsites and 30 new cave cabins (for a total of 231 sites). South Frontenac Council voted 9-0 against the application so now it has gone to the Land Tribunal. A Case Management Conference was held on March 18 and the hearing is scheduled for Jan.7, 2025. A lot more funding will be needed to fight this expansion. They need suggestions for fundraising events.
