

Friends of the Tay Watershed 2021 Environmental Awards WINNERS

Categories:

1. The Environmental Award for **Contribution to the Tay Watershed** goes to **Leah Craig**, of Tay Valley Township, for taking the initiative to clean up the trash in the Tay River by *directing her school's community service program obligation to this very worthwhile project. Her initiative is an outstanding example of a young person who recognized and acted upon the need to help her environment.*
2. The Environmental Award for **Contribution to Water Resources at the provincial, national or international level** (person or organization, either local or outside area, whose activities have an impact on water resources on a wider basis) goes to **Climate Network Lanark** *for their commitment to connect, co-ordinate, facilitate, initiate and support collaborative efforts and actions to address the impacts of climate change in Lanark County. These initiatives will also be crucial to the preservation of water resources not only within the Tay Watershed but also at the provincial, national, and international level.*
3. The Environmental Award for **Contribution to the General Environment** (a local person or organization whose activities are aimed at the environment but impact on our water resources): goes to **Rob Rainer, Councillor, Sherbrooke Ward, Tay Valley Township Council**. By publishing 'Rob's Report', he shows his commitment to educate and inform the residents of Tay Valley Township on issues that come before Council, and what the environmental significance might be by including links to related research or environmental science. Rob is always an advocate for measures that have a positive environmental impact.
4. The Environmental Award for **Contribution to the Friends of the Tay Watershed Association** goes to **Frank Roy** for his many years of support, mentoring, time and talent to the Friends of the Tay Watershed Association.
